UNITED STATES CELLULAR CORPORATION
QUARTERLY E911 IMPLEMENTATION REPORT

United States Cellular Corporation (“USCC”), by its undersigned attorneys, hereby submits its quarterly E911 implementation report pursuant to the Commission’s order staying certain E911 phase II deadlines for many non-nationwide wireless carriers.¹

I. Introduction

USCC is a Tier II carrier under the *Order to Stay* issued by the Commission in 2002.² As a wireless carrier with systems serving many small and rural markets, USCC faces particular challenges in upgrading its technology and interacting with a wide variety of PSAPs across its service area. To meet these challenges, USCC continues to dedicate substantial financial and personnel resources to accelerate the deployment of E911 service throughout its service area. USCC personnel maintain regular communication with PSAPs that are at varying levels of readiness in the provision of E911 service to ensure prompt roll-outs once the PSAPs

¹ See *Revision of the Commission's Rules to Ensure Compatibility with Enhanced 911 Emergency Calling Systems, Phase II Compliance Deadlines for Non-Nationwide CMRS Carriers*, Order to Stay, 17 FCC Rcd. 14841 (2002) (“*Order to Stay*”).

² *Id.* ¶ 23.

are upgraded to receive and utilize either phase I or phase II E911 information. In addition, USCC closely monitors its E911 vendors to facilitate E911 deployment to all requesting PSAPs.

USCC continues to make great progress toward the provision of E911 service throughout its service area. In 2004, USCC completed an ambitious, four-year, multimillion dollar CDMA overbuild in all of its TDMA markets, an upgrade that enabled it to deploy a phase II compliant handset solution in cooperation with upgraded PSAPs that requested the service. USCC's cooperative phase II deployment effort employed during its CDMA conversion effectively became the standard utilized by the FCC in considering the phase II waiver requests filed by Tier III carriers proposing a conversion from TDMA to CDMA.³

II. Status of Phase I Requests

USCC and its E911 vendor, Intrado, actively work with all requesting PSAPs to deploy phase I E911 service throughout USCC's service area. In numerous cases, USCC has proceeded with deployment despite the fact that a particular PSAP request does not amount to a valid request for service under the Commission's rules, including in some markets where the PSAP has made only an oral request. In addition, in USCC's newly-acquired markets, USCC has proceeded with phase I or phase II roll-out to the entire market despite the fact that in some cases USCC received no formal request from a particular PSAP within that market.

To date, USCC has received 992 requests for phase I service. Of these requests, seven have been determined by USCC to be invalid because no USCC cell sites route to the particular PSAP. USCC has successfully deployed phase I service to 920 PSAPs, representing

³ See *Revision of the Commission's Rules to Ensure Compatibility with Enhanced 911 Emergency Calling Systems; E911 Phase II Compliance Deadlines for Tier III Carriers Order*, 20 FCC Rcd. 7709 at ¶¶ 12-14, 16-17, 28-31 (2005).

an additional 67 PSAPs receiving phase I service from USCC since the last quarter and an overall phase I deployment rate of over 93 percent. Of the remaining 65 outstanding phase I requests, 38 have been pending less than six months. Attached as Appendix A is a spreadsheet identifying those PSAPs requesting phase I service and the markets in which USCC has deployed phase I.

USCC has 27 PSAP requests for phase I service that have been pending for more than six months. For all but two of these outstanding requests, USCC has reached an agreement with the PSAP regarding a new target date for the deployment of phase I service. In these markets with delayed phase I deployments, the cause for the delay has been beyond USCC's control. For example, 14 of these outstanding requests are from PSAPs in California, where only one carrier can conduct testing at a time. In some instances, PSAPs have encountered delays in converting from a standalone ALI database to the LEC's database or have experienced problems with the trunks provided by the LEC to the selective router. In other cases, lack of funding at the PSAP has resulted in an inability of the PSAP to upgrade its equipment. USCC, with the assistance of Intrado, maintains regular contact with PSAPs in all of these markets and typically is ready to begin drive testing as soon as the PSAP is ready to deploy phase I.

Two of the outstanding phase I requests pending for more than six months involve an ongoing dispute between the PSAPs of Dane County and the City of Middleton in Wisconsin over which entity is entitled to receive E911 traffic emanating from within the City of Middleton. The City of Middleton lies entirely inside Dane County. The two PSAPs have submitted conflicting call routing spreadsheets for the disputed area that USCC cannot technically accommodate. Currently, USCC, several other wireless carriers and the two PSAPs are engaged in a trial process whereby calls are/will be routed to each of the PSAPs for a period of 90 days.

At the end of the trial period, the PSAPs will make a final decision on call routing for the City of Middleton E911 traffic.

III. Status of Phase II Requests

USCC continues to deploy phase II E911 service in accordance with the Commission's rules and the *Order to Stay*. To date, USCC has received 738 PSAP requests for phase II service. Eight of these requests have been determined to be invalid because no USCC cell site routes to the particular PSAP or USCC does not provide service in that PSAP's area. USCC has successfully deployed phase II E911 service to 622 PSAPs in its service area. USCC currently has 108 outstanding PSAP requests for phase II service, of which 79 have been pending less than six months. The attached spreadsheet identifies those PSAPs requesting phase II service and the markets where USCC has deployed phase II service.

USCC has 29 phase II requests that have been pending more than six months. In each of the markets where phase II deployment has been delayed, with the exception of the two PSAPs in Wisconsin in the ongoing dispute about call routing mentioned above, USCC has obtained an agreement from the requesting PSAP to postpone the phase II roll-out deadline until a date certain or until 30 or 60 days after the PSAP is ready and able to utilize the phase II information. USCC and its vendors have completed all the necessary steps toward phase II deployment in each case and are waiting for the PSAPs to make the necessary corrections to and/or upgrade their systems. For example, one PSAP has experienced delays as a result of lack of funding to purchase upgraded hardware and software for its equipment. Another PSAP has experienced delays as a result of LEC issues involving the selective router and software upgrades. Other PSAPs do not have the proper equipment to receive and utilize phase II information.

USCC continues to work with Intrado to do the necessary calibration, accuracy and drive testing to ensure that USCC's phase II service meets the Commission's accuracy requirements. Intrado has conducted testing on USCC's CDMA switches that are serving PSAPs with live phase II deployments. These tests have been conducted using the CDMA location-capable mobile phones currently available to USCC's customers. Intrado's accuracy test results confirm that USCC is meeting the Commission's requirement that 67 percent of the calls are accurate to within 50 meters and 95 percent of the calls are accurate to within 150 meters.⁴ Intrado performs a complete accuracy test every six months on each USCC switch with deployed phase II service. USCC also contracts for the provision of monthly updates to the Base Station Almanacs ("BSA") for all of its cell sites serving CDMA markets where it has received a phase II request. The BSA improves the accuracy of location information provided to PSAPs.

IV. Status of Handset Deployment

USCC is 99.9 percent compliant with the Commission's May 31, 2004 deployment benchmark that 100 percent of new activations be GPS-enabled handsets.⁵ In its ongoing efforts to increase penetration rates of GPS-enabled phones, USCC pulled back all non-E911-enabled phones still in inventory at all of its retail locations in CDMA markets as of May 2004.

USCC currently has the following GPS-enabled handsets available for sale in its CDMA markets: Audiovox CDM-8910, Kyocera KX-16 Candid, Kyocera KX-9b, Kyocera KX-9c, Kyocera KX160 Xcursion, Kyocera Slider Remix KX5, Kyocera KX-13 Dorado, Kyocera KX-440, Motorola V323, Motorola V3c, Motorola K1M, Motorola L7C, Motorola 323i,

⁴ 47 C.F.R. § 20.18(h).

⁵ See *Order to Stay* ¶ 27.

Motorola 315, Motorola V3M, Nokia 6019i, Nokia 6235i, Nokia 6255i, Nokia 2125i, Nokia 6165, Nokia 6265, Samsung SCH-a570, Samsung a-670, Samsung a-850, Samsung a-645, LG UX210, LG UX5000, LG UX355, LG UX390, LG UX4750, LG UX3300, LG UX245, RIM 7130, RIM 7250, RIM 8703, and UT Starcom 7025. USCC no longer places any purchase orders for non-E911 capable CDMA handsets nor does it restock non-E911 capable CDMA handsets sold at USCC's retail locations.

In December 2005, USCC filed a request for a limited, six month waiver of the Commission's rule requiring that 95 percent of all handsets in use on its network be GPS-enabled. USCC reported that it did not have sufficient information about the GPS capabilities of the handsets used by seven percent of its subscribers, and that its worst case handset penetration level as of December 31, 2005 was 85 percent, assuming that all seven percent of the unidentified handsets were not GPS-capable. Since filing its initial waiver request, USCC submitted two different supplements to the waiver request that reported its progress toward meeting the 95 percent requirement. The first supplement reported that USCC's worst case handset penetration rate increased to 91.38 percent as of March 31, 2006. The most recent supplement reported that as of September 30, 2006, USCC's overall GPS-capable handset penetration was 94.48 percent.

On January 5, 2007, the FCC released orders denying the handset penetration waivers of nine wireless carriers, including USCC.⁶ The *Order* denying USCC's waiver request imposed various reporting and filing requirements on USCC, including an obligation to provide quarterly updates to the FCC on its handset penetration rate. On January 19, 2007, pursuant to

⁶ See *Request for a Limited Waiver of United States Cellular Corporation*, FCC 06-66, CC Docket No. 94-102 (released Jan. 5, 2007) ("Order").

the *Order*, USCC filed a certification stating that no later than December 31, 2006, the percentage of location-capable handsets in use among all USCC subscribers exceeded 95 percent.

V. Conclusion

As demonstrated above, USCC continues to make significant progress in deploying E911 phase I and phase II service throughout its service area. The commitment of significant financial and personnel resources has enabled USCC to move closer to its goal of meeting or exceeding the Commission's implementation deadlines for E911 deployment.

Respectfully submitted,

UNITED STATES CELLULAR
CORPORATION

Before the
FEDERAL COMMUNICATIONS COMMISSION
Washington, D.C. 20554

In the Matter of)
Revision of the Commission's Rules) CC Docket No. 94-102
To Ensure Compatibility with)
Enhanced 911 Emergency Calling Systems)

)

AFFIDAVIT OF JAMES JENKINS

I, James Jenkins, hereby declare as follows:

1. I am Vice President, Legal and External Affairs, for United States Cellular Corporation ("USCC"). In this capacity, I am familiar with USCC's E911 deployment efforts.
2. I have reviewed the foregoing USCC Quarterly E911 Implementation Report and believe that the facts contained therein are true and accurate.

I declare under penalty of perjury that the foregoing is true and correct, to the best of my knowledge and belief.

Dated this 30 day of January, 2007.

James Jenkins

CERTIFICATE OF SERVICE

I, Jennifer Tatel, do hereby certify that on this 1st day of February 2007, copies of the foregoing "United States Cellular Corporation Quarterly E911 Implementation Report" were served by U.S. first-class mail, postage prepaid, to the following:
